SUPPLEMENTAL REPORT TO THE SECRETARY OF AGRICULTURE

FROM: Roger C. Viadero
Inspector General

SUBJECT: Nationwide Data on Minority Participation in Farm Service Agency's Farm Loan Programs - Phase III

On December 9, 1996, you asked us to evaluate the Department's effectiveness in working with socially disadvantaged and minority farmers and ranchers. In response to your request we issued two reports, Evaluation Report on Civil Rights Issues - Phase I, Report No. 50801-2-Hq(1), dated February 27, 1997, and Minority Participation in Farm Service Agency's Farm Loan Programs - Phase II, Report No. 50801-3-Hq, dated September 29, 1997. This report provides you with supplemental data related to your request that we determine whether the percentage of minority participation in FSA's farm loan programs correlates to the total population by Nation, State, and county.

EXECUTIVE SUMMARY

As explained in our Phase II report, we were unable to make meaningful correlations between FSA's portfolio data and either the General Population Census or Agricultural Census. The General Population Census reports the total population but does not identify that portion of the population engaged in the business of farming. The Agricultural Census shows the number of farms and land in farms for minorities, but it does not show the number of persons in the business of farming. Further, the FSA portfolio may contain borrowers who are still indebted to FSA but are no longer farming. We found that FSA's application data base was a better indicator of minority participation in FSA's direct farm loan programs. However, we also noted that some FSA loan service centers may not have entered all application data into FSA's application tracking system.

In response to your request, we obtained data from the 1990 General Population Census, the 1992 Agricultural Census, FSA's loan portfolio as of February 1997, and data from FSA's direct farm loan applications for fiscal year 1996. This data is presented in this report for each State and county in the Nation.¹ We have not audited the data for accuracy or completeness. The nationwide data is presented in two parts. The first part is the Executive Summary which explains the data obtained and

¹FSA's direct loan application data is presented by Service Center which may service more than one county in the State.

provides summary information. The second part of the report provides the detailed data obtained for all States and counties.

The following tables present nationwide summaries of the data.

Nationally, during fiscal year 1996, minority farmers submitted 1,603 applications (7 percent) for direct farm loans compared to 21,282 (93 percent) submitted by nonminority farmers. Of the 1,603 minority-submitted applications, 992 (62 percent) were approved and 611 (38 percent) were rejected or withdrawn. Of the 21,282 nonminority-submitted applications, 15,213 (71 percent) were approved and 6,069 (29 percent) were rejected or withdrawn. Our Phase II report (Report No. 50801-3-Hq) provides insight into FSA's loan application process and why it is perceived as a burden to both minorities and nonminorities.

The following tables provide Statewide summaries of the data for each State.
